

Lyn Parche from Byron at Byron . . . award a "blessing" for the resort.

Awards for excellence

The Byron at Byron Resort recently received two awards for excellence from the Mayne Investments Northern Rivers Urban Design Awards.

The resort took two of the three awards for excellence allocated – one for urban design and one for sustainability.

Another Byron Bay development, Troppo Architects' commercial and residential development on the corner of Bay and Fletcher Streets in Byron

took the third award for excellence.

"This is a blessing for us" said Lyn Parche, Byron at Byron's general manager. "We have received both national and international awards since opening, but to be recognised like this locally is particularly important and very special to John and I".

Phillip Follent, the awards jury chair, was very impressed with the resort's respect for its location.
